 There was a quasi panic in the Stock market this morning, and the Fancies fell off from 1 to 2 P cent. The French news is generally given strong proclivity downward, without any particular cause, which was assisted by the partial staingency of money and the disorganization of the eliques which have been managing some of the lead-ing Stocks. The disturbances in France undoubtedly increased the extent of the fall, but there would probably have been a decline to-day had not the Europs arrived. The market opened for Erie at 83;, went to 83, and afterward recovered to 831@831 shewing a decline of 11, \$\text{\$\pi\$ cent. on Saturday's prices.} Reading fell off to 581, but closed at 591, a decline of It P cent. Harlem declined to 651, closing at 661, a fall of | P cent. Norwich declined 1; P cent., selling at 52. Convertibles declined to 89, a fall of 2 \$\psi\$ cent, but closed at 89\$. They have 3 \$\psi\$ cent, interest accumulated. Canton sold at 66, a deoine of 2 P cent. Generally, the market at the close of the Second Board was firm. The market during the day, for sound investment Stocks, was not sensibly affected, and, although the sales of this description were quite light, there was no disposi tion to sell at lower prices. A prominent reason for the dectine to-day is the fact, that a considerable

The market for Sterling is firm to-day at 101@101, with good bills at 101. The demand is at large. The advices from France have had but little influence upon bills on Paris, excepting to cause a general suspension of operations. Sales of good bills have been made at 5.15.

or two age, there were but two or three influential

bears in the Board.

In Freights the market is quiet and rather heavy. The rates are to Liverpool—Cotton, 3-16d.; Flour, 12d.; Grain, 3@3\d. Cheese, 20s.; Dead Weight, 15s.; Naval Steres, 1s. 6d. To London-Flour, 1s. 9d., Cheese, 30s., Beef, 4s. 6d., Dead for the coasting and West India trade.

The commercial world, connected with the Continental trade, are waiting with much anxiety for the arrival of the mails by the Europa. The news has produced less excitement than was an-therpated, and it is not expected by those connected will supervene, as occurred when the last revolu-tion came off. Very little or no discredit was thrown deredit, and it appeared to be generally coneded that no centest would ensue in France, which would destroy commercial credit.

The Harlem Railroad Company have deplared their seventh semi-annual dividend on the preferred stock of 4 } cent., payable 6th January.

There is a more active demand for Money to-day, which is less freely met. The Banks are enticipating the call this week for their quarterly ment and are preparing for it.

The decline in Eria Convertible Bonds is partly the result of the current rumor that a new issue of Convertible Bonds is about to take place to the extent of three millions of dollars, at 90 P cent. It is also stated that a million have already been applied for at that price, and another report states that the whole three millions have been taken. We do not believe the last story and think the first doubtful, as interest off the other Convertibles can be bought at about 86.

The Directors of the Bank of Fishkill are about to increase its capital, by adding new stock to the amount of \$50,000.

The Money market at Boston is easy. The stocks of Breadstuffs, says The Philadelphia Commercial List, are unusually small of Flour and Meal, principally owing to the drouth of last sum mer and fall, which prevented supplies from coming forward freely, and the cold weather early this month. which prevented the boats from making another trip. Stock of Flour, 40,000 bbls. Corn Meal, 4,125, Wheat 25,500 bushels. Of this amount about 48,000 bushels are held on millers' account, or for export. The comparative time of making up the stocks for the pre seding five years were as follows:

To Ou Sunday a Br. brig hence, while in the Lower Bay, came in contact with sloop Anne Eliza, of Gloucester, loaded with wood; the sloop immediately sunk; the crew, however, were saved. The steam tug Jacob Bell reports this morning seeing the sloop assiver at Coney Island and the wood strewed along the beach.

To Schr Excelsior, (wrecker) Clarke, from the bark Joan of Dresden, which was reported ashore yesterday at Hog Island, near Hempstead, where Capt, Tillon, agent of the Underwriters had taken her for the purpose of rendering assistance. Capt. T. reports the vessel lying head on with about 3 feet of water in her hold; and nithough provided with cables, anchors, steam pump, &c., and in every way prepared to relieve her, his profered assistance was refused. All the passengers have been conveyed ashore, and she is in charge of the pilot.
